

Day one :

I started my visit of Yosemite park today. It is truly breathtaking, beautiful and poetic. I would love to see it in real life someday, to appreciate the nature, its sound, its smell, the tour was great, I would love to hike there and lie down in the forest. I took some pictures that I found astonishing.

Day 2

I saw Sentinel dome, it was beautiful! I continued looking at some other views, I saw a waterfall, a glacier point, a forest, ...

Day 3

Although camping in Yosemite Valley can be hard as the camping sites are reserved in minutes, you can camp in other great places. These camping sites are more natural, and less crowded. Camping there seems fun, as there are a lot of possible activities to do: hiking, swimming, paragliding, ... I would love to camp there with some friends.

Day 4

The experience was stunning, although a bit scary! I don't think I would ever do it but it is fun to see what it is like.

Day 5

I really love stargazing but living in Moscow it is hard. I would love to stargaze in Yosemite, everything is so bright and clear.

Day 6

I love bears, and I learned that they are normally actually pretty sweet and very smart, but humans made mistakes and now black bears are conditioned to eat human food, so now they are considered dangerous by many, when it's humans that made them like that. I loved seeing some and learning about them.

Day 7, last day 😞

I listened to the sounds of nature last night, it was so relaxing and calmed my anxiety for sometimes.

I really loved doing this tour, I hope that someday I will be able to go to Yosemite Valley and enjoy what I saw through my computer in real life.
